Dear Parents,

Christian Heritage Academy was born in the fall of 2004, when five high school students, together with their parents, expressed a desire to receive a Christian education that provided a higher level of academic achievement without the trappings of John Dewey's humanistic curriculum. With nearly thirty years of teaching experience and research behind us, we offered them classical education from a distinctly Christian perspective.

As our students go out into the world, they impact the culture around them with their maturity in thoughts and actions. This positive, distinctly Christian impact will undoubtedly continue to produce a demand among astute, discerning, and dedicated Christians for the type of education CHA offers for their children.

After reading the enclosed brochure, the staff of CHA would ask that your family prayerfully consider joining CHA in the laborious process of rebuilding our nation's spiritual and intellectual heritage. In order to get the application process started please contact Irl Gilliland, Headmaster, at 308-850-5845, in order to schedule a conference.

God Bless,

Irl Gilliland
